Improved usability and accessibility on www.sweden.gov.se

In July 2006, some changes will be made to the design of the www.regeringen.se and www.sweden.gov.se websites. The new design is the result of a systematic effort to improve usability and accessibility. The changes are based on such things as user tests and validation of HTML and style sheets.

In connection with the launch in July, the text version of the website will be discontinued. Instead, the level of customisation on the entire website will be increased in accordance with WAI guidelines. Visitors to the website will be able to select their own preferences, such as choice of font or background colour.

Content on the websites is validated XHTML 1.0 Strict, and Cascading Style Sheets (CSS) 2.0. The website has a fluid design, which means that all proportions are relative to the text size used.

The changes being made will not affect the URL addresses; links to material on the websites will still work after the launch.
